

Profile description

We are looking for a motivated individual with a strong interest in public development and innovation policies.

Hold a master's degree in economics or related field.

Strong analytical, research and writing skills.

Ability to work in a multicultural team.

Ability to write and speak in English is a must; a professional level of French is highly appreciated.

2-3 years of relevant professional experience in public policy consulting or in the public sector are an asset.

Experience working in emerging and developing countries in Africa.

Thematic expertise in the areas of private sector development, innovation, entrepreneurship, or agro-economy.

We are looking for a person based in Abidjan, Cote d'Ivoire. However, we encourage those who do not reside there to apply.

Role

She/He will be required to work on projects covering a wide range of sectors such as private sector

development, innovation, entrepreneurship, and agro-economy mostly.

The role of the analyst/consultant in Private sector development/innovation public policy will be to

provide cross-cutting support in conducting policy evaluations, sectoral and technical studies, strategic support and consultancy projects for our major clients in Africa.

She/He will contribute to the company's business development activities (i.e. proposal preparation).

Level of experience wanted

2-3 years
