technopolis group

Profile description

We are looking for a curious and motivated individual who is interested in working as an entry level (i.e. analyst) for the public sector. A specific interest or experience working on policies to support the transition to carbon neutral economies is expected (climate change, circular economy, blue economy in particular). Additional experience or an academic background relating to the supporting science, technology and innovation; European Structural or Investment Funds/cohesion policy; policy evaluation or international development would be considered an asset. The person must have at least a Master's level in a related field (e.g. public policy, engineering, life sciences). Previous experiences working for the public sector / consulting would be considered a plus but is not a condition for eligibility.

The candidate is expected to be fluent in French and English. Fluency of a third language would be considered an asset.

Many of our interns become full time staff at Technopolis, or go on to take on exciting opportunities in the public and the private sector.

Role

The role of the intern in innovation policies for green transition (e.g. energy and climate policies, circular economy, eco-innovation, sustainable mobility) will be to provide cross-cutting support in conducting policy evaluations, sectoral and technical studies, strategic support and consultancy projects for some of our major clients in France and at the European/international level e.g. the European Commission (DG ENV, DG CLIMA, DG ENER, DG RTD), the French ADEME / Ministry of Environmental Transition, and multilateral development banks. She or he will also be asked to contribute to the company's business development activities (i.e. proposal preparation). She / he will be part of Technopolis Group's green transition practice, but may be required to work on projects linked to other policy areas as well (e.g. cohesion policy, innovation, international development).

No previous professional experience is required

We are looking to recruit a full-time intern for at least 6 months starting in September/October 2023. Internship should be sponsored by the intern's university (stage conventionné)

Deadline for applications

August 25th 2023 at the latest, but the position may be filled before if we identify a suitable candidate. It is recommended to send in your application ASAP.
